Principal’s Message

Welcome to our first Scitech Week! This week will involve each student researching, creating and modifying individual paper planes. The students will be questioning, predicting, planning investigations, conducting investigations, processing and analysing data and information. Students will use a great deal of mathematical language to describe the methods they used. Students will also be asked to identify appropriate strategies to solve problems, supporting their conclusions by explanation of solutions and/or proving reasons. The students will present their final prototype on Friday for the Paper Plane Competition. Some planes may be designed for distance whilst others may be designed specifically for looping etc.

This Friday is Grandparents Day. We have organised this to coincide with our fortnightly assembly and the finale of Scitech Week. We will begin the morning at 9am. This will then be followed by our Paper Plane Competition. At the conclusion of the competition we will have morning tea. We ask that each family bring one SMALL plate of goodies to share.

This Thursday, we have Guy Porter our District Guidance Officer (School Counsellor) visiting. If parents/carers would like to speak to Guy or for their child/children to speak to Guy please arrange this with staff and consent forms will be made available.

Congratulations to Lachlan McNee, Lachlan Chaffey and Lily Chaffey! These three students travelled to Tamworth on Friday 20 February to attend the Tamworth Zone PSSA Swimming. Congratulations on your efforts and thank you for representing our school in such a positive manner!

On Tuesday the 17 March, all students will have the opportunity to go to the Small School Hockey Gala Day. The gala day will be a great opportunity for students to come and try hockey, experience training with state level coaches and mix with other small school students in the area.

Kind regards,
Ms Rebecca Hancock.

Upcoming Events

TERM 1 WEEK 6 – 2 March 2015
